Rise from the ashes and . . . fly, again!

CYW-500 Necklace in Box

In Greek mythology, the phoenix is a bird that sets itself afire, dying in a show of flames. Within days, the phoenix rises from the ashes, refreshed and invigorated, to once again soar the skies.

Thus, the phoenix has become a symbol of renewal.

There is no maximum number of mistakes or times we are allowed to start over.

It is never impossible, it is never too late to, as the phoenix,

*Rise from ashes . . .
and
fly again!*

The frog, being a prehistoric amphibian, originates back possibly 256 million years.

Within many cultures, frogs have long been a symbol of luck and abundance.

Keep this little frog with you and
